

**Westfield Technical Academy and  
Lower Pioneer Valley Educational  
Collaborative**

**Manufacturing Technology  
Departments**

The Manufacturing Technology Programs at Westfield Technical Academy (WTA) and Lower Pioneer Valley Educational Collaborative (LPVEC) fuel the manufacturing industry with well prepared, highly trained graduates who fill many positions within the Western Mass Machining Industry.

WTA and LPVEC provide classroom education and opportunities to work in the field through Co-Op's to students during their senior year.; providing the opportunity to receive hands on, on the job training at local machine shops who are looking to grow their workforce. The amount of tooling, raw material, software and up-to-date equipment that is required to provide the students with relevant, in-house, hands-on training is under constraint due to budgets. The WMNTMA hosts this annual charity golf outing to help our Manufacturing Programs obtain the tools they need to keep providing qualified graduates which will become employees in the machining industry.

This event's proceeds will go to providing the tools to train students to enter today's Manufacturing arena. What better charity to invest in the future of children and the backbone of America....Manufacturing!

Oak Ridge golf club is one of the first courses in the area to open each season and is one of the most playable courses year round. The course hosts prominent tournaments and charity events each year, which draw many notable participants.

Founded on July 1, 1974 by Julian Breton and Ron Collins; Oak Ridge was purchased five years later by Tony Strycharz, and has been in the Strycharz Family since then and is currently operated by his son, Mono.
